Profile

Third-year Bachelor's student in Computer Science Technologies (Information Systems Development) at ISET Kélibia, passionate about web and mobile development. I am proficient in Flutter, Symfony, PHP, Java and Python, and have built complete web and mobile applications. I am looking for a **final-year project (PFE) internship from February to May 2027** to contribute to innovative projects within an agile team.

Technical Skills

- **Languages:** HTML5, CSS3, JavaScript, Python, Java, PHP, C, Kotlin, Go
- **Frameworks & Libraries:** Flutter, Symfony, Django REST, Next.js, Angular, JavaFX, JEE, WordPress
- **Databases:** PostgreSQL, MySQL, MongoDB, Oracle, SQLite
- **Data, BI & AI:** Business intelligence, Machine Learning, Big Data
- **Tools & Methodologies:** Firebase, WebSockets, JWT, Adobe Illustrator, Agile/Scrum
- **Version Control:** Git, GitHub
- **Soft Skills:** teamwork, communication, project management, creativity, time and priority management

Academic Projects

StageLink – Internship Management Platform

- Design of a web platform with multi-role authentication, full CRUD, file upload, admin validation and password reset by email.
- **Technologies:** Symfony 7, Doctrine, SQLite, Twig, Bootstrap

Quranic Educational Platform

- Development of a multi-center web/mobile application: reading tracking, schedule and attendance management, integrated messaging.
- **Technologies:** Django REST, Next.js, Flutter

Smart HR System

- Implementation of an application for automatic CV analysis (scoring, skills detection, recommendations) and employee and recruitment management.
- **Technologies:** JavaFX

QuizMaster

- Creation of an interactive quiz platform: user management, quiz creation, automatic scoring and performance tracking.
- **Technologies:** PHP

Professional Experience

Advanced internship in mobile development – After Code, Tunisia | January 2026

- Design of **Klitchi**, a food delivery platform: 3 interconnected Flutter mobile apps (customer, courier, restaurant)
- Development of the backend with Go/Fiber and PostgreSQL
- Implementation of real-time tracking (WebSockets), JWT authentication and Firebase push notifications

Introductory internship in development & design – Code Temple, Tunisia | January 2025

- Discovery of the Agile/Scrum methodology
- Content creation and management with WordPress
- Design of illustrations and images for articles with Adobe Illustrator

Extracurricular Activities

- **Club T'SCAI** – Marketing Manager (2025 – present), Marketing Assistant (2024 – 2025): design of event posters and contribution to the digital communication strategy on social media

Education

Bachelor's Degree in Computer Science Technologies – Information Systems Development | ISET Kélibia | 2024 – present

Certifications

- **Cisco Networking Academy** (2024 – 2025): "Networking Basics" badge
- **Club T'SCAI – ISET Kélibia** (October 2024): UX/UI training – certificate of participation

Languages & Interests

Languages: Arabic (native) • French • English

Interests: travel and discovering new cultures, design, creativity and artistic sense, photography and video editing.
